

Getting Started with MyLibraryDV

How to Download the Media Player to your Home Computer

1. From your home PC with high speed or broadband Internet, visit the library's website – <http://www.bossierlibrary.org/>
2. Look for and click on one of the following linked images.

3. You will be taken to a web page that allows you to install the download manager onto your home computer. This is a one-time requirement that takes 2-4 minutes.
4. Once the player installed on your home computer, click on the MLDV icon on your computer's desktop and when it opens, browse and select the video you would like to view.
5. Continue to follow the on-screen instructions for how to log on.

NOTE: The download manager remembers you even when you close the connection. You will not have to repeat this step as long as you do not sign out.
